

**East Tennessee Discovery Center
2010 Summer Science Camps**

Registration begins **Tuesday, April 13, 2010**

"Young Scientist Camp"

for 6 - 7 year olds.

****Offered 2 times for your scheduling convenience**

#1 Wednesday, June 2 - Friday, June 4, 2010

#2 Wednesday, July 7 - Friday, July 9, 2010

9:30 am - 12:00 noon

Cost: \$55 (includes t-shirt, all supplies & daily snack)

This camp features three different days of science fun, including geology, physical science, and chemistry. Erupt a volcano and test minerals as we explore the rock cycle. Explore the concepts of light and color one day and even make a colorful light catcher and glow dough! Experience one day of kitchen chemistry where young scientists make ice cream and bubblegum!

"Slippery, Slimy Chemistry Camp"

for 8 - 12 year olds.

Monday, June 7 - Friday, June 11, 2010

9:00 am - 12:00 noon

Cost: \$80 (includes t-shirt, all supplies & daily snack)

Have a slimy learning experience! Make rubber bouncy balls and erasers! Do glow-in-the-dark chemical reactions and the Magic Super Water Slurper Trick. Change the color of solutions using titrations and make ice cream and bubblegum, along with other edible chemistry experiments. This camp will concentrate on a different type of chemical concoction each day!

"Insides and Out Dissection Camp"

for ages 11 & up.

Monday, June 28 - Thursday, July 1, 2010

9:00 am - 12:00 noon

Cost: \$80 (includes t-shirt, all supplies & daily snack)

Learn about both the inside and outside of many different animals! Dissect 7 species including an earthworm, grasshopper, crayfish, clam, starfish, perch, and frog. Learn about the different body systems of these animals and how they are like or unlike our own body systems. This is a great camp for home school students who need to fill the requirements of a secondary biology lab.

"Model Rocket Camp"

for 8 - 14 year olds

Monday, July 12 - Friday, July 16, 2010

9:00 am - 12:00 noon

Cost: \$80 (includes t-shirt, all supplies & daily snack)

Aspiring NASA engineers and astronauts will construct and decorate their own model rocket. See an Akima Planetarium show about the planets! Learn about what is needed to survive space travel, then design and build a space ship or space station from recyclable goods. Taste freeze-dried ice cream! For our finale, families are invited to participate on the final day of camp as we launch our rockets into the sky!

"Fetal Pig Dissection Camp"

for ages 11 & up, with dissection experience.

Tuesday, July 20 - Thursday, July 22, 2010

9:00 am - 12:00 noon

Cost: \$65 (includes t-shirt, all supplies & daily snack)

Explore the body systems of a fetal pig and learn how these body systems are similar to ours and some health and fitness issues that concern each of these systems in our bodies. The first day will involve the integumentary and muscular systems of the body. The skeletal, respiratory, and circulatory systems will be explored on day two. Finally, the digestive and reproductive systems will be explored.
